00:11 TEMPT (VO)

Graffiti to me is a very, very complicated issue and I don't know where to begin with that.

00:14 EMUSE (VO)

Graffiti is like All-Americana, it's about fame and being popular.

00:26 TEMPT (VO)

It's something that can't be tamed. It's wild and it's free in the very essence of the word freedom.

00:33 EMUSE (VO)

Graffiti is Americana!.

A writer is sometimes a Piecer. he's doing large masterpieces, doing illustrations, murals, pieces out into the street...the large illustrations. Writers have something to say. That's why they call themselves writers. A tagger is just someone who wants to get their name up.

It's just about getting their own recognition, it's just about getting recognized by their own crew.
